

- 6" cylinder
- 36 tonne compaction force
- Programmable logical controller
- ¾ full light
- Pin off facility
- Header bar retaining teeth
- Key operated on off switch
- Range of loading hoppers available including bespoke systems
- 12 months' parts & labour warranty
- Stress engineered body

The KHD 6000 is our largest static waste compactor, a colossal machine suited to very large waste through puts or bulkier materials. This machine is ideal for seaports, large waste facilities and other large scale operations. The 6000 comes as standard with high safety features including low 24v operating controls, dual safety monitoring circuits and E- stops at control positions.

Model	KHD 6000
Motor (kW)	15
Power	40 amp three phase
Three phase	60 tonne
Compaction force	36 tonne
Cycle time	55 seconds
Charge box size	W 1500mm x L 2000mm x H 850mm
Operating pressure	2000 P.S.I
Gross weight	8000kgs
Overall length	4750mm
Overall height	1230mm
Overall width	1750mm

OPTIONAL EXTRAS

XHD upgrade including dual cylinders for increased compaction force, Bin lift system, auto start, bespoke hopper, increased cycle time, telemetry pack, key exchange safety systems, container guide rails.
